## Ball Valves

Contractor quality press ball valves in sizes 1/2" - 4" feature full port design, forged brass or cast bronze bodies and numerous handle and trim options. Standard construction for HVAC or certified Lead Free for potable water, all feature press connections incorporating **Leak Before Press®** technology.

## Gate, Globe Check & Strainers

Cast bronze 200 CWP gate, globe, and awing check valves, in press sizes 1/2" to 2", feature materials and workmanship that conform to MSS-SP80. Rising and non-rising stem models feature solid bronze wedge disc gates, and bronze or PTFE seated glodes and checks. Also available are bronze wye strainers and in-line check valves with RPTFE **Ball Cone®** seating. Press connections incorporate **Leak Before Press®** technology 100% factory tested.

## Water Pressure Reducing Valves

Available is Press sizes 1/2" - 2", two models cover residential, commercial and institutional applications. Featuring sturdy bronze bodies and high flow rates, valves are 100% factory tested and preset at 50 psi. Press connections incorporate **Leak Before Press®** technology.

## Backflow Prevention

The 4A Series of Reduced Pressure Principle Backflow Preventers are available in APOLLOPRESS sizes from 1/2" to 2", with **Leak Before Press®** technology. Featuring bronze bodies and innovative cartridge check design, these assemblies provide protection of potable water against health hazard conditions. Assemblies are 100% factory tested. Available with optional Apollo bronze strainers.
